Position Title	Senior Civil Engineer
Company	AREE Group
Job Location	Erbil- KRI/Construction Site
Employment Type	Full-Time
Number of Posts	1
Start Date	As Soon As Possible
Application Deadline	8 SEP 2026

A. JOB SUMMARY

AREE Group and its affiliated companies are seeking an experienced and motivated Senior Civil Engineer to support construction projects in Erbil, including Overhead Transmission Line (OHTL) projects. The role is responsible for supervising daily construction activities and ensuring all works comply with approved drawings, project specifications, schedules, safety requirements, and quality standards.

B. MAIN DUTIES AND KEY RESPONSIBILITIES

Construction Supervision & Execution

- Supervise and oversee daily construction activities to ensure work is executed in accordance with approved drawings, specifications, and project schedules.
- Monitor construction progress, identify potential delays or technical issues, and implement corrective actions to maintain project timelines.
- Support the successful delivery of projects within the approved scope, budget, and schedule.

Technical Oversight & Quality Assurance

- Review and verify construction drawings, technical documents, and material specifications before and during execution.
- Inspect completed works to ensure compliance with quality standards, project specifications, and contractual requirements.
- Ensure all construction activities comply with applicable engineering standards, regulations, and best practices.

Coordination & Stakeholder Management

- Coordinate with Line managers, consultants, subcontractors, and site teams to facilitate efficient project execution.
- Attend site meetings and collaborate with internal and external stakeholders to resolve technical and operational issues.
- Provide technical guidance and support to site engineers, supervisors, and construction personnel.

Health, Safety & Environmental (HSE) Compliance

- Ensure adherence to Health, Safety, and Environmental (HSE) policies, procedures, and regulatory requirements.
- Promote and maintain a safe working environment across all construction activities.

Reporting & Resource Management

- Prepare daily, weekly, and monthly progress reports and maintain accurate project documentation and site records.
- Monitor material usage and support resource planning to optimize efficiency and minimize waste.

C. REQUIREMENTS & QUALIFICATIONS

Education

- Bachelor's Degree in Civil Engineering.

Experience

- Minimum 5–7 years of experience in construction projects, with proven experience in site supervision and project execution.

Languages

- Fluency Kurdish, and Arabic. English is an advantage.

COMPETENCIES & SKILLS

Technical Competencies

- Strong knowledge of construction methods, engineering standards, and quality control procedures.
- Proficiency in engineering and project management software, including AutoCAD, MS Office, MS Project, and Primavera (preferred).
- Ability to read and interpret engineering drawings, specifications, and technical documents.
- Good understanding of Health, Safety, and Environmental (HSE) requirements.

Interpersonal and Behavioral Competencies

- Strong leadership, communication, coordination, and problem-solving skills.
- Ability to manage multiple tasks and coordinate with consultants, subcontractors, and project teams.
- Excellent organizational and reporting skills.

OTHER REQUIREMENTS

- The position is based in Erbil, although it is possible to travel to other Iraqi and KRG cities.; therefore, the successful candidate must be a resident of Erbil and capable of traveling as needed to project sites, events, and external meetings.
- Responsiveness and willingness to work outside standard hours when required (during local weekends or public holidays when these are regular business days in other countries).

D. COMPENSATION, BENEFITS & ENTITLEMENTS

Salary Range

- **2,700,000 – 3,000,000 IQD** (subject to qualifications, experience, & technical competency).
- Transportation allowance, medical insurance, social security coverage, paid leave and other applicable benefits in line with company policy.

E. APPLICATION PROCESS

- Interested candidates are invited to please send their most updated CV to (jobs@areegroup.com) and indicate (Senior Civil Engineer) into the subject of the email.
- The deadline for applying is **08/09/2026**.
